Drawings

1. The drawings are objected to under 37 CFR 1.83(a) because they fail to provide a sufficient showing of the fabric layer 58 as described in the specification. The layer 58 appears to be shown in figures 2, 3, and 4, but only figure 3 is provided with a reference character.

It is suggested that figure 2 be provided with a reference character 58 to point out the fabric layer, and further that the fabric layer be shown in phantom in figure 2 in the lug 30 in order to provide a clear illustration of the invention.

Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If

the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claim 1 is objected to because of the following informalities: It appears that in line 10 the word "in" should be changed to - -into- - in order to correctly define the location of the fabric.

Appropriate correction is required.

Allowable Subject Matter

3. Claims 1 and 2 are allowable over the prior art of record.

Conclusion

4. This application is in condition for allowance except for the formal matters noted in paragraphs 1 and 2 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references show endless tracks in which the drive lugs are reinforced.
